

All About That Base

Because you know I'm all about that base
'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base

Yeah, it's pretty clear, that paper's old
But we ain't got no money, money so what we supposed to do?
'Cause we got that past, past that all the people want
All the old stats and all the old figures

We see those digital plans
They get all the attention
We got to get those scanners
And learn to use Photoshop
Convert to TIFF, TIFF, just make 'em bigger
'Cause everyone wants access
But no one wants to pay

Yeah my ACA taught me the right way to preserve
They said: let More Product Less Process be your guide
We will try to digitize all those technical manuals,
But we will have to get all those rusted fasteners right off

Because you know I'm all about that base
'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base
Hey!

We're bringing history back
Go ahead and tell the IT department that, Hey
No, we know we need your help
So don't put us all on hold
Or we will take up all your space

Yeah my ACA taught me the right way to preserve
They said: let More Product Less Process be your guide
We will try to digitize all those technical manuals
But we will have to get all those rusted fasteners right off

Because you know I'm all about that base
'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base
Hey!

Because you know I'm all about that base
'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base
Hey!

Because you know I'm all about that base
'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base, no acid
I'm all about that base 'Bout that base
Hey, hey, ooh
We know you like this base

Parody of Meghan Trainor's "All About That Bass"
